**a. Memorial Garden-** Mr. and Mrs. Weremeychik and Mr. and Mrs. McGowan explained to the group that they will be working on the Memorial Garden at IPW, as it is in disrepair. Mrs. Weremeychik explained that there was a significant amount of mulch that had built up over the years and there is a lot of mold in the mulch, as it does not break down. It is their feeling that it may be why the plants and annuals are not thriving. Also the mulch is pushing the fence outward and needs to be removed and repainted. The flagpole will also be painted and inspected and the sign will also be fixed. All of this will be done before the Memorial Day Ceremony. Emails will be sent around with dates and times that they will be working at the garden, if any WEAC members are available to help.

**b. Eagle Scout Projects-**

- **Buttercup Blvd. Basin-** Mr. Tim Lindquist, Eagle Scout Candidate, will work with his troop on Community Service Day 2019, to plant the basin. Ms. Ross and Mr. Lindquist went over some specific information regarding the materials he will need for the actual planting day.

Mr. Suffian recommended that stone berms be placed across the concrete flow channels to slow and divert some of the water entering the basin.

Ms. Brown recommended that we lightly mulch and do not use the water donuts around the trees and shrubs.

- **Pollinator Garden-** Ms. Ross and Ms. Brown explained that Daniel Haschets, Eagle Scout candidate, will be building and planting a Monarch Waystation in John Paul Park, adjacent to the WEAC's cluster planting project. His plan is to build one raised bed and leave an area behind it to grow naturally. The total project area will be approximately 8' x 15'. He will plant Milkweed and meadow plants in the natural area, and plant the raised bed with plants that will attract butterflies. Ms. Brown has purchased the plant materials. Mr. Haschets, has gotten donations and raised money for topsoil, mulch, wood and protective fencing. The project will be completed on May 4, 2019. Ms. Brown and Ms. Laurelli will work with the troop on this day to oversee and advise.
- c. **Pickertown and Folly Road Basin-** Ms. Ross has asked CKS Engineers to develop a plan for the concrete flow channel removal. Once that plan has been developed, we will contact the administrator of the Growing Greener grant for approval.
