

DO YOU KNOW...how easy it is to get involved with other individuals like yourself who have great ideas and a desire for improvements to our neighborhoods and community?

These individuals make up our boards, commissions, committees, councils and task forces. Just pick a group that offers a place for you to be creative and add your expertise and enthusiasm. Submit an online application and you; too, can be proactive in advancing our quality of life in Warrington Township.

The following groups have vacancies:

- Bike and Hike Committee
- Building Code Appeals Board
- Communications Advisory Board
- Environmental Advisory Council
- Historic Commission
- Open Space and Land Preservation Task Force
- Planning Commission
- Veterans Advisory Committee
- Zoning Hearing Board

Meetings are held once a month in the evening for approximately two hours except for the Planning Commission which is twice a month. You can be as involved as you like. All you need is a passion and a vision to make a difference. Our current members are dedicated individuals and would love to add you to their organization. Recently, a new member joined the Historic Commission and proposed an idea for bringing awareness to historic sites within the township. What can we say about you?
