

DO YOU KNOW... that new neighbors will soon be moving in?

The township has given final approval for 97 single family detached homes and 48 twin homes. The township has also given preliminary approval for an additional 64 single family detached homes and 81 townhomes. Construction sites are being readied for new homes to be built. They will be on Easton Road, Phillips Drive and Street Road. Recently, a developer started to market homes in a twenty-one lot subdivision on Folly Road, and before the first foundation was built two-thirds of the houses was under contract to purchase. Apparently, the word is out that Warrington Township is the place to raise our families, shop at our stores and enjoy our parks and open spaces.
