RE: Update on Water Situation

Costner Filtration Project

Ground has been broken for the Costner Filtration Project. The Township Contractor is in the process of installing the construction entrances and the Erosion and Settlement control measures for the site.

North Wales Water Authority Interconnection

Design plans for the new North Wales Water Authority interconnections are nearing finalization. Authorization for advertisement of the first interconnection is anticipated to be considered during a regularly scheduled Board of Supervisors meeting in the near future.

I will be sure to provide additional updates as there are updates to provide.

Thank you!
