TOWNSHIP MANAGER
BARRY P. LUBER

June 1, 2017

The Warrington Board of Supervisors awarded a contract to extend Water facilities on Street Road to Joao & Bradley Construction Co. Inc. This project is slated to begin on June 7, 2017. This date is weather dependent and subject to materials delivery.

This project will consist of the extension of the existing water main in Street Road between Griffiths Road and Grace Lane within the PENNDOT right of way and easements acquired from pertinent property owners.

There will be an inspector on site each day. The inspector will be the key contact between the residents and the contractor. Dennis Work of CKS Engineers, Inc. will be the inspector.. He can be contacted during working hours of the project at 267-770-5424. Hours each day will be 9AM until approximately 3PM.

During construction, a portion of the east-bound lane of Street Road will be closed off. The contractor will have flagger staff on site to direct traffic through the construction site.

The contractor will also be videotaping the current conditions of all curbs, sidewalks, trees and shrubs before the job gets underway. Any lawn damage will be repaired and reseeded. Where any of the work occurs within driveways/driveway aprons, they will be repaired along with any curb or sidewalk damage. We anticipate this project to be substantially completed as early as July 2017 but no later than September 2017.

If there are any special needs situations that should be brought to our attention, please contact our office prior to beginning of construction. We can be reached at 215-343-1800.

Thank you for your cooperation!

Christian R. Jones
Director of Water and Sewer/
Assistant to the Manager
