**RE: Update on Water Situation**

***Public Water Connections***

As of June 23, 2017:

- 17 properties have been connected to public water.
- 22 properties have been authorized for connection
- 11 private wells have been abandoned

***Costner Filtration Project***

The floor in the filtration building has been poured and the roof trusses have been delivered. Additionally, the GAC filtration systems have been installed. Some adjustments to the valves were needed to make them accessible to Water/Sewer staff for maintenance.

***ANG Cooperative Agreement Amendment***

The Township received a copy of the fully executed Cooperative Agreement (CA) Amendment from the Air National Guard (ANG) on June 23, 2017 which increased the scope of work to include additional water replacement/remediation expenses associated with the Environmental Protection Agency's (EPA) combined lifetime health advisory level (HAL) for PFOA/PFOS which came into effect in May of 2016. It is important to note that this additional work will draw from our existing \$5.9 million until another Amendment is executed to provide an additional \$7.6 million in funding. The ANG has indicated that they are awaiting funding from the Department of Defense for this additional Amendment.

I will be sure to provide additional updates as there are updates to provide.

Thank you!
