TOWNSHIP MANAGER  
BARRY P. LUBER

August 1, 2017

The Warrington Township Board of Supervisors awarded a contract to extend Water facilities on Center Street and Easton Road to Barrasso Excavation, Inc. Mobilization for this project is anticipated to begin the week of August 7, 2017. Excavation work is anticipated to begin on August 14, 2017 weather dependent and subject to materials delivery.

This project will consist of two components. The first will involve the extension of the existing water main in Greenfield Lane down through Center Street until the street dead-ends. The second will involve the extension of existing water main along the southeastern edge of Easton Road just south of where Easton intersects with Street Road.

There will be an inspector on site each day. The inspector will be the key contact between the residents and the contractor. Dennis Work of CKS Engineers, Inc. will be the inspector. He can be contacted during working hours of the project at 267-770-5424. Hours each day will be 7AM until approximately 3:30PM.

During construction, the outermost north-bound lane of Easton Road will be closed between 9AM and 3PM Monday through Friday. The contractor will install all appropriate traffic controls in accordance with PENNDOT requirements.

The contractor will also be videotaping the current conditions of all curbs, sidewalks, trees and shrubs before the job gets underway. Any lawn damage will be repaired and reseeded. Where any of the work occurs within driveways/driveway aprons, they will be repaired along with any curb or sidewalk damage. We anticipate this project to be substantially completed as early as September 2017 but no later than October 2017.

If there are any special needs situations that should be brought to our attention, please contact our office prior to beginning of construction. We can be reached at 215-343-1800.

Thank you for your cooperation!
