

**Robert L. Showalter, P.E., P.L.S.**  
Principal  
**Showalter & Associates**

**QUALIFICATIONS AND EXPERIENCE**

Mr. Showalter has over 49 years of diversified consulting civil engineering experience. He founded the consulting firm of Showalter & Associates in July 1980, after gaining extensive experience working for two of the largest consulting firms in Pennsylvania. Prior to opening his own firm, Mr. Showalter was employed as Vice President of SMC Martin, Inc., in King of Prussia, Pennsylvania. During this time period, he developed business and marketing plans for a 100+ employee firm. His primary responsibility was to identify and then develop business opportunities for the firm in existing and emerging markets for eight offices, located in Pennsylvania, New Jersey, West Virginia, and Washington D.C.

Showalter & Associates acted as Municipal Engineer for Norristown Borough, Montgomery County for ten years until 2004. Bob has also represented Skippack and Lower Frederick Townships, Montgomery County and Warrington and Warwick Townships in Bucks County, along with several other Townships and Authorities throughout Bucks and Montgomery Counties in Pennsylvania.

Bob supervises consulting assignments of varying scope and complexity. These projects have included feasibility studies, preparation of master plans, engineering and surveying services for commercial, industrial, residential and institutional projects, as well as engineering, design and construction inspection services for municipal clients. In addition, he directs the work efforts of a team of qualified professionals, experienced in engineering and design, including site planning, storm water management, landscape architecture design, and construction observation services.

During his career, Bob has made countless presentations to Municipal review boards, including Planning Commissions, Zoning Hearing Boards Councils and Boards of Supervisors, where he has provided expert testimony. As such, he is adept at all facets of the land development process and is intimately familiar with the requirements and ordinances of many municipalities.

Over the past 49 years, he has prepared detailed storm water management and floodplain studies for residential, institutional, commercial, and industrial projects for submission to numerous municipalities throughout Bucks, Montgomery and Chester Counties. In his capacity as a municipal engineer for more than twenty (20) municipalities Bob has also reviewed numerous floodplain analyses.

Showalter & Associates provides professional civil engineering and survey services to clients in both the public and private sectors. The firm has experience in designing and managing large, complex development projects as well as small projects for individual clients.

The consulting firm of Showalter & Associates is located in Chalfont, Bucks County, Pennsylvania.
